I completed one semester at the Warsaw University of Technology, studying Architecture in English.

Currently, I am pursuing a degree in Electronic Information Processing at the Jagiellonian University. This program focuses primarily on computer graphics and programming, as well as data analysis and processing.

I am organized, punctual, and meticulous in performing given tasks.

I have a wide range of interests, including volleyball, climbing, and skiing, as well as a passion for photography, fantasy and Formula 1.
